Both options would work. You can communicate with Ram to get CDN edits and when we review the respective chapters with the U.S. annex co-leads, I can inform Todd about the CSMI section, cc Ram and note that Ram is also reviewing.

I've gone through the "Chris draft".. Carla still needs to look at it but I was able to accept pretty much all his edits, and fixed some areas of his suggestions e.g., reference to figures, other minor things. Will try and get Carla to send your side an email today/tmr confirming.

**The one problem I've run into is the CSMI section**, which is still really unclear and in fact wrong (the original text was incorrectly adapted). Thinking we need to sort this out as I don't think our CDN domestic review process will fix this text.

I've attached my proposal for the CSMI text. Since I'm no expert in this area it needs review.  
**What do you want to do – 1) have me work with Ram to propose these as CDN edits? 2) we work with the appropriate binational CSMI folks to fix this?**

Hi Ash and Carla,

Chris has reviewed Mike's mark-up of the PRP and has generally accepted his revisions, except where noted, and incorporated text provided by Cam. Upon your review, our next step for the PRP is to individually send the Annex chapters to the US co-leads and have them look at both Mike's mark-up and Chris' mark-up.

Please have a look and let us know if there are any questions.
